

Healthy Volunteers Needed

The National Institutes of Health, in Bethesda, Maryland, seek healthy volunteers to participate in a research study to test a pain-relieving skin cream. All study-related tests are provided at no cost. Compensation is provided.

Participation involves:

- One screening visit and one testing session
- Skin cream on both of your arms
- Warm and painful heat pulses on your arms

You may qualify if you are:

- 18 – 50 years of age
- In good health
- Able to come to the NIH during daytime hours

You may not qualify if you:

- Have a medical condition that changes your feeling of pain, heat, or touch
- Regularly use medication that affects pain or heat perception
- Suffer from chronic pain
- Have allergies to skin creams
- Are a drug user
- Are in the third trimester of pregnancy
