

Are you or your loved one currently hospitalized with **COVID-19**?

Researchers at the NIH National Heart, Lung, and Blood Institute in Bethesda, Maryland, in collaboration with Inova Health System, are enrolling patients ages 18 to 90 years in a new clinical trial to test fostamatinib for the treatment of COVID-19.

WHAT IS INVOLVED?

- We will review your medical history to determine eligibility for the study
- Participants will be given standard of care in addition to the study drug (fostamatinib) or a placebo twice a day by mouth for 14 days
- Care is provided at no cost to patients treated at the NIH Clinical Center

For more details about participating, please visit this link: <https://bit.ly/2FbxkCO>
