

The Impact of **COVID-19** on the Eyes

An Online Survey from

The National Eye Institute

Has COVID-19 Infection Affected Your Eyes?

Some reports have shown that COVID-19 infection can be associated with eye symptoms. Through an Online survey, researchers at the National Eye Institute want to **learn more about eye symptoms in COVID-19 infection** including how common they are and how they relate to other COVID-19 associated symptoms.

Questions? Email: eyecovid-19@nih.gov

Participants

- Must be 18 years and older
- Must have had a confirmed positive COVID-19 test
- Do not need to have had eye symptoms to participate

About the Online Survey

- The survey is expected to take 10 to 20 minutes
- Participation is voluntary
- All responses are anonymous
